SCHOOL OF MATH
PROSPECTIVE STUDENT DAY
FRIDAY, SEPTEMBER 22, 2017

Calling all college juniors and seniors!

You’re invited to Skiles 006 to find out about the graduate programs offered by the School of Math at Georgia Tech.

The schedule for the day’s activities is as follows:

2 – 2:45 p.m. Welcome and Overview of Graduate Programs
2:45 – 3 p.m. Break
3 – 3:45 p.m. Panel Discussion with Current Graduate Students
3:45 - 4:30 p.m. Tea Break with Faculty and Current Graduate Students
4:30 – 5:30 p.m. Campus Tour

Interested? Email dgs@math.gatech.edu with:
• Your name.
• The year you plan to graduate.
• The college you’re attending.

Minority students with a focus on mathematical sciences and students from the Atlanta area, in particular, are encouraged to attend.
Many factors come together to distinguish the School of Mathematics as a global leader in mathematical research and education.

IMPRESSIONS RANKINGS
The School of Mathematics is currently ranked No. 28 nationally by U.S. News & World Report, and No. 38 worldwide, according to ShanghaiRanking’s Academic Ranking of World Universities.

HIGHLY DISTINGUISHED FACULTY
More than 60 permanent faculty members are world leaders in virtually every field of pure and applied mathematics, with 75 percent holding individual research grants at any time, and 12 having received American Mathematical Society fellowships.

LOW STUDENT-TO-FACULTY RATIO
Our 86:61 Ph.D. student-to-permanent faculty ratio is one of the nation’s lowest for a math program, which ensures an intensive level of interaction between students and faculty, generating the highest student satisfaction rating of any school on campus.

100% POST PH.D. EMPLOYMENT SUCCESS RATE
All our Ph.D. students start rewarding careers immediately after graduation, with over half entering academia as professors or postdoctoral associates. In recent years, employers have included many leading math departments (such as Berkeley, Cambridge, Courant Institute, Princeton, University of Michigan, UCLA) and well-known organizations from a diverse range of sectors in government and industry (such as Amazon, JP Morgan, NCR, NSA, Oracle, WalmartLabs, Wells Fargo, and Yahoo).

ADMISSIONS
More than 90 percent of students begin in the fall semester, but students may apply for admission and financial support for the spring term as well. The deadline for fall applications is in December.

All doctoral program applicants must submit scores from the General and Subject Tests of the Graduate Record Examination (GRE). International students whose native language is not English must pass the Test of English as a Foreign Language (TOEFL).

FINANCIAL AID
All our doctoral students receive full tuition waivers and stipends as teaching or research assistants. Top doctoral candidates also have the opportunity to earn the Presidential Fellowship, Goizueta Fellowship, and National Science Foundation Fellowships.

LOCATION
Georgia Tech offers a traditional-style campus setting in the heart of Midtown Atlanta — a dynamic, cosmopolitan city offering extraordinary professional, cultural, and recreational opportunities. The campus is served by two subway stations providing direct access to the world’s busiest airport.

Midtown Atlanta has been undergoing growth in recent years, and, in 2016, was named “One of the great places in America” by the American Planning Association.
