The Secrets of Student Success

How do students make the most of their potential?

Academic achievement begins with intellectual ability and background preparation. However, the level of commitment dramatically affects student performance.

The successful student... 

attends all lectures and actively participates in class.

reads the book, working through examples and extra problems.

goes beyond solving homework problems to understanding the concepts.

reviews graded work and solutions, seeking to understand and correct errors.

has a healthy balance of work, study, recreation, and sleep.

is respectful, considerate, honest and honorable at all times.

takes advantage of office hours for additional assistance or extra opportunities.

is always motivated and disciplined.

consistently displays mastery of material.

exceeds expectations.

Many math classes can be very challenging in terms of content and pace. As a Tech student, you are expected to work hard and do well. We are here to help you do that, but it’s ultimately up to you. As always, Your Mileage May Vary.

Good luck and best wishes for a great semester!
