Homework assignment; Math 4317

Dr. W. Gangbo *

February 3, 2014

We refer to exercises from the book *Introduction to Analysis*, by Maxwell Rosenlicht. Only homeworks marked *ast* will be collected and graded. However, we suggest that you work all exercises of this assignment.

This course is about reasoning processes as well as Analysis. It is therefore important that all assignments be written up with an eye to presenting a clear cogent as well as correct and concise argument. Elegance and brevity, when consistent with accuracy, are virtues in any argument.

3 Due on Monday 10 March

*School of Mathematics, Georgia Institute of Technology.
