

MATH3012, Summer 2010
Applied Combinatorics
Course Policies and Procedures

Instructors: Noah Streib (2nd half) and Xingxing Yu (1st half)

Office: Skiles 139 (Streib) and Skiles 235A (Yu)

Office Phone: 5-2468 (Streib) and 4-4757 (Yu)

Email: nstreib3@math.gatech.edu and yu@math.gatech.edu

Office Hours: MW 2:30pm–3:30pm (or by appointment)

Text: Discrete and Combinatorial Mathematics (Fifth edition), by R. P. Grimaldi.

- The class meets in Skiles 168 from 1:20pm to 2:30pm on MWF. Prompt and regular attendance is expected. Students will be responsible for all material taught, handouts and information given, and work assigned on days they miss classes.
- Homework will be assigned and collected, and a subset of problems will be graded. Homework makes up 10% of your grade. Tests and final problems will be similar to problems assigned and examples given in class.
- There will be two in-class, closed-book tests. Each test weighs 30% in your grade. Test 1 covers Chapters 1, 4, 5, and Chapter 8. Test 2 covers Chapters 9, 10 and 11. (These are tentative, and may be altered according to the pace at which the material is covered.) Test dates will be announced one week in advance.
- The final exam will cover all chapters mentioned above and materials from Chapters 12 and 13. Final exam contributes 30% to your grade.
- Absences from tests will be excused **only** when authorized **well in advance** by the instructor for extraordinary situations (in which case a make-up test will be given). Georgia Tech Honor Code applies to all tests and the final. See <http://www.honor.gatech.edu/index.php>
- Exceptions to and changes in the above policies may be made at the discretion of the instructor.
- Important dates:
 - June 18 is the last day to drop while still receiving a "W".
 - May 31 and July 5 are holidays.
 - The final exam is on Monday, August 2 from 11:30 to 2:20.
